Flexion HR and Team

DEAR FLEXION,

Are you looking for a creative individual willing to learn and expand his knowledge of web development and design? As a recently graduated Moraine Park Technical College student – I had taken my Web Design and Development Specialist AAS and Mobile Development AAS.

During my classes through Moraine Park, I learned how to create well-formatted websites using advanced CSS and HTML. I have also briefly gotten into JavaScript and PHP and how to use it in our websites. I have also practiced using web-publishing software (such as Dreamweaver and FileZilla) and website layout. I have also touched on topics such as graphic design and image optimization. Outside of college I also do some photography.

If you are looking for someone with knowledge in these areas – then look no further. As per my resume you will find a more in-depth look into my skills. You can also find a copy of my resume and my online portfolio at <https://www.tyegggers.com/>

I would love to be apart of Flexion so that I can learn more in a field that I am passionate about. I love learning and am looking to provide passion and charisma to the table. I would very much like to discuss opportunities with Flexion. If you would like to talk more, you can call me at **563-880-6150**. Or you can email me at eggty@icloud.com. I will usually follow up within 24-48 hours. Thank you for taking the time to read this.

Sincerely,

Ty Eggers
